

HeartGuide™

HeartGuide Sizing Tool

Print this page at 100% (do not scale to fit).

1

Print this page at 100% (do not scale to fit). Place a quarter on the circle to check the print scale is 100%. Cut out the size tool.

2

Wrap the size tool around your wrist about two fingers (1" - 1.5") from the base of the hand with the arrow pointing up.

3

Ensure that the band is wrapped snugly against the wrist. The arrow will point to the correct size for your wrist.

4

If you fall into the gray area, it is recommended you order a Large HeartGuide.

If the circle is not the same size as a real quarter, check your print settings and reprint.
