

The background of the advertisement is a photograph of an ice cave. The cave's interior is illuminated with a cool, blue light, highlighting the intricate textures and patterns of the ice walls and ceiling. A person is visible in the distance, standing on a rocky ledge, which provides a sense of scale to the vast, cavernous space. The overall atmosphere is mysterious and awe-inspiring.

STANDARD FEATURES FOR ALL FLASHLIGHTS

READY TO USE

The flashlights are supplied with ANSMANN batteries or rechargeable batteries.

SPLASHPROOF HOUSING

The flashlights are protected by their construction against the ingress of splash water.

QUALITY ASSURED

The seal promises the highest quality according to our standards.

WARRANTY

You are safe with us. Should you have any questions or problems with the product, our manufacturer's warranty applies!

SPECIAL FEATURES

The fixed **holding magnet** allows the attachment to all metallic objects.

The **infinitely variable focusing** enables the illumination of precise point light up to consistently even flood light.

The **penlight** is perfect for illuminating hard-to-reach places or narrow openings.

The adjustment by **up to 45° tilt angle** of the lamp head guarantees optimal illumination.

The battery pack is charged through standard **USB connection**.

The battery pack can be directly charged through the **Micro USB socket connection**.
